

# nyloprint<sup>®</sup> Combination CW 35 x 50

Mid-size compact all-in-one letterpress plate making system

Mid-size unit of the equipment combinations, suitable for processing water washable printing plates up to a maximum size of 300 x 500 mm (13.8" x 19.7")

## High efficient and cost effective

- includes exposure, washout and drying unit for the production of high quality water washable letterpress plates
- space saving as all units can neatly be stacked on a trolley base
- each component can be (purchased and) used separately, as each has its own electrical connection
- long service life due to advanced materials – the casing of the equipment and all parts in contact with water are made of high quality stainless steel
- process safety due to programmed plate processing parameters and temperature controlled washout section
- for washout only tap water is needed
- less mechanical stress due to a proven plush washout system that prevents the washing away of fine elements
- oscillating plate holder ensures even plate washout and is self adjusting to allow the use of different plate thicknesses

## Simple operating and convenient handling

- digital programmable operating panels for customising the processing times of each function
- audio alarm to signal end of each process
- trolley base with casters for easy movement and access to the system
- separate units for each process allows to easily replace or upgrade one part of the system if necessary
