# Hydrosolv AIII

Blanket & roller wash

High flashpoint blanket & roller wash for UV and conventional inks

## Product Features

- Water miscible formula
- Blend of solvents effective on UV cure\*, hybrid, and conventional inks
- High flashpoint, no Dangerous Goods classification, meets European AIII (A three) standard and Australian Class C
- OEM approved, tested by FOGRA for automatic washing systems
- For both automatic systems and manual washup

## Advantages of Hydrosolv AIII

- Contains emulsifiers, so water can be mixed into the wash to clean solvent-soluble residue and water-soluble residue
- Hydrosolv AIII ("A three") is a blend of different solvents including vegetable-sourced products, formulated to clean the blanket or roller thoroughly of either hybrid inks, UV cured inks\* or conventional inks, without harming the rubber surface
- Uses high flashpoint solvents, slower evaporation rate means more economical use as solvents do not flash off so rapidly, remaining on the rubber surface to dissolve ink

\* includes UV cured newsink e.g. Flint Group Arrowlith

# Hydrosolv All

Features	Advantages	Benefits
<ul style="list-style-type: none"><li>• Suitable for both UV, hybrid, and conventional inks</li></ul>	<ul style="list-style-type: none"><li>• One solvent for all applications</li></ul>	<ul style="list-style-type: none"><li>• Versatile and cost-effective</li></ul>
<ul style="list-style-type: none"><li>• Approved by leading original equipment manufacturers</li></ul>	<ul style="list-style-type: none"><li>• Compatible with automatic system and validates warranty</li></ul>	<ul style="list-style-type: none"><li>• No rubber swell or harm to press components (not for use with EPDM)</li></ul>
<ul style="list-style-type: none"><li>• High flashpoint (Class C)</li></ul>	<ul style="list-style-type: none"><li>• Low hazard</li><li>• Low odour</li><li>• Lower consumption</li></ul>	<ul style="list-style-type: none"><li>• Safer in use and when storing</li><li>• User friendly</li><li>• Economical</li></ul>
<ul style="list-style-type: none"><li>• Excellent blanket release properties</li></ul>	<ul style="list-style-type: none"><li>• Reduced surface tack</li></ul>	<ul style="list-style-type: none"><li>• Suitable for all stocks including foils</li><li>• Easy start-ups</li></ul>

**Available pack sizes**

20 litre pail; 200 litre drum

**Product code**

L010054

**Application**

Automatic equipment:

use without dilution and follow the manufacturer's recommendations

Manual use on blankets:

mix with up to 25% water in a wash bottle, shake, and apply to blanket and scrub with a clean rag

Manual use on rollers:

use neat; or mix with 20-25% water in a wash bottle to remove gum glaze, paper fibres, and lint

NOTE: Not for use on EPDM rubber compounds, and do not allow Hydrosolv All to contact unbaked positive plates

**VOC content**

88%

**Flashpoint**

66 °C

**Approvals**

FOGRA tested on all sheetfed presses as required

Non-DG – not regulated for storage or transport

**More products. Streamlined access. Greater results.**

Flint Group's Print Media division offers a uniquely powerful combination of products, services and expertise; giving you access to the industry's broadest range of pressroom products.

*Inks and Coatings. Pressroom Chemicals. Blankets. Sleeves. Consumables.*

Rely on us for consistency, reliability and customer focus. Our aim is to make it easier for you to achieve your business goals. With Flint Group products in your pressroom, you can run your business with confidence and peace of mind.

You are welcome to contact us for further information.
