Flexocure[®] ANCORA[™] 50 B3

A UV FLEXO INK FOR FOOD CONTACT MATERIAL APPLICATIONS WITH SUPERB PRESS PERFORMANCE AND ADHESION FOR FOOD LABELS AND CERTAIN PACKAGING APPLICATIONS

Flexocure ANCORA[™] 50 B3

is suitable for labels and certain flexible packaging applications where specific demands for low migration are required.

It can be used in all Narrow & Mid Web flexographic print units provided the ink is cured (exposed to UV light). Flexocure ANCORA 50 B3 can also be used with reverse angle doctor blades as well as chambered doctor blades.

Suitable for a wide variety of applications

Self adhesive labels

(coated & uncoated papers, PE, top coated PE & PP, PP, cast coated papers and PVC)

- Wrap around labels
- In-mould labels
- (BOPP)
- Unsupported film applications
- Sleeves

PROPERTIES	BENEFITS
• Very low migration	 Possibility to use UV Flexo in various food packaging and label applications where specific low migration is required. Developed for targeted food simulants. Food simulant E: Tenax (MPPO) Food simulant B: 3% Acetic acid Food simulant D1: 50% Ethanol
Excellent rheology and low viscosity	 Easy to handle, very good ink duct behaviour, no hanging back
• Complies with Nestlé Guidance Note for Packaging inks and with the Swiss Ordinance list	 Meets stringent demands of food packaging applications
Excellent curing properties	 Improved productivity as high speed printing is possible
Minimum plate swell	Consistent high print quality
 Excellent dot sharpness, minimal dot gain and suitable for line, text and halftone work 	Best print quality obtainable with UV flexo
Excellent adhesion to synthetic substrates and good printability	 Lower inventory as one ink suits a wide range of materials

FLEXOCURE ANCORA™ 50 B3 OFFERS:

- Very low migration for targeted simulants
- Adhesion to a wide range of materials
- · High printing speed
- Very good colour strength
- · Low viscosity and good ink duct behaviour
- · Excellent printability and dot reproduction
- Minimal plate swell
- · Very good chemical resistance properties

FLEXOCURE ANCORA 50 B3 Printing speed up to 150 m/min Mileageⁱ cm³/m² Process 3 - 4 Solids 5 - 10 **Printability** Process . . . Solids ... Material suitability Paper • • Thermal substrates ...
