# Premium Wash 60

Blanket & roller wash

High flashpoint blanket & roller wash for conventional sheetfed inks

## Product Features

- Water miscible formula
- Blend of premium solvents for optimum ink cutting power
- High flashpoint, no Dangerous Goods classification
- OEM approved, tested by FOGRA for automatic washing systems
- For both automatic systems and manual washup

## Advantages of Premium Wash 60

- Contains emulsifiers, so water can be mixed into the wash to clean solvent-soluble residue and water-soluble residue
- Premium Wash 60 is a blend of different solvents including vegetable-sourced products, formulated to clean the blanket or roller thoroughly but without harming the rubber surface
- Uses high flashpoint solvents, slower evaporation rate means more economical use as solvents do not flash off so rapidly, remaining on the rubber surface to dissolve ink

# Premium Wash 60

| Features   | Advantages  | Benefits  |
|--|---|---|
| <ul style="list-style-type: none"><li>• Superior ink solvency power over similar marketed products</li></ul> | <ul style="list-style-type: none"><li>• Faster washups with less wash required</li></ul>                  | <ul style="list-style-type: none"><li>• Reduced downtime; cost effective</li></ul>            |
| <ul style="list-style-type: none"><li>• Approved by leading original equipment manufacturers</li></ul>       | <ul style="list-style-type: none"><li>• Compatible with automatic system and validates warranty</li></ul> | <ul style="list-style-type: none"><li>• No rubber swell or harm to press components</li></ul> |
| <ul style="list-style-type: none"><li>• High flashpoint (Class C)</li></ul>                                  | <ul style="list-style-type: none"><li>• Low hazard</li></ul>  | <ul style="list-style-type: none"><li>• Safer in use and when storing</li></ul>               |
| <ul style="list-style-type: none"><li>• Low odour</li></ul>  | <ul style="list-style-type: none"><li>• Safer pressroom environment</li></ul>                             | <ul style="list-style-type: none"><li>• Improved conditions for printers</li></ul>            |

**Available pack sizes**

20 litre pail; 200 litre drum; 1,000 litre IBC

**Product code**

L010097

**Application**

Add approximately 25% water to Premium Wash 60 in a wash bottle for manual cleaning; or for automatic equipment use without dilution and follow the manufacturer's recommendations.

**VOC content**

90%

**Flashpoint**

63 °C

**Approvals**

FOGRA tested on all sheetfed presses as required  
Non-DG – not regulated for storage or transport

**Note:** For best results, use as part of a regular maintenance programme with high performance deglazers like Varn Revitol or Varn Roller Paste.

**More products. Streamlined access. Greater results.**

Flint Group's Print Media division offers a uniquely powerful combination of products, services and expertise; giving you access to the industry's broadest range of pressroom products.

*Inks and Coatings. Pressroom Chemicals. Blankets. Sleeves. Consumables.*

Rely on us for consistency, reliability and customer focus. Our aim is to make it easier for you to achieve your business goals. With Flint Group products in your pressroom, you can run your business with confidence and peace of mind.
