# Hydrosolv

Blanket & roller wash

Blanket & roller wash for UV and conventional sheetfed inks

## Product Features

- Water miscible formula
- Blend of solvents effective on UV cure and conventional inks
- For both automatic systems and manual washup
- Evaporates quickly without leaving residue

## Advantages of Hydrosolv

- Contains emulsifiers, so water can be mixed into the wash to clean solvent-soluble residue and water-soluble residue
- Hydrosolv is a blend of different solvents formulated to rapidly clean the blanket or roller thoroughly of either UV cured inks or conventional inks, without harming the rubber surface
