## 060 PROCESS COLOURS

|                            |  |
|----------------------------|--|
| <b>PRODUCT CODE</b>        | Yellow ..... 11005409<br>Magenta ..... 11005317<br>Cyan..... 11005405  |
| <b>DESCRIPTION</b>         | The Newsman 060 series of process colours were developed specifically for use in the News Limited Group. They are designed on a "single phase" vehicle system to enable fast penetration of news print stocks which facilitates less marking through the press, and enabling more efficient printing of back to back colour. |
| <b>FEATURES</b>            | *Fast paper penetration<br>*High colour density<br>*Sharp dot reproduction<br>*Smooth solids<br>*Robust lithographic performance<br>*Excellent rub resistance<br>*Low mist levels<br>*Available in pumpable grade only   |
| <b>PACKAGING</b>           | 1200kg tote tanks & 200kg straight sided drums.  |
| <b>SUBSTRATE</b>           | Newsprint, improved newsprint and other uncoated paper stocks  |
| <b>WASH UP</b>             | Hydrocarbon based washes, such as Varn Journal Wash or Varn Web Wash, are recommended.   |
| <b>FOUNTAIN SOLUTIONS</b>  | The Varn Media Fount range is recommended. Newsman 060 colours are also suitable for use with most acid, alkali or neutral founts.<br><i>Contact your Flint Group representative for the most suitable fount for your system.</i>  |
| <b>PLATES</b>              | Suitable to be used with all types of negative, positive and CtP plates.   |
| <b>BLANKETS</b>            | DayGraphica News Printer range of blankets is recommended.<br><i>Contact your Flint Group representative for the most suitable blanket for your press.</i>   |
| <b>INK ADJUSTMENT</b>      | Newsman 060 colours are press ready and require no adjustment.   |
| <b>HEALTH &amp; SAFETY</b> | Newsman 060 colours are classed as non dangerous goods.<br>For further information refer to the MSDS for the product.  |
