M R C
Metering roller cleaner

Powerful degreaser for bareback dampeners

Product Features
• Varn MRC is a water miscible formula
• High flashpoint, no Dangerous Goods classification
• Blend of solvents effective on all conventional inks; also UV cure* and hybrid inks

Advantages of M R C
• Contains emulsifiers, so water can be used to rinse away MRC after wash up and any dissolved residue from printing, including ink, paper dust, fount salts and gum, and spray powder
• Formulated to clean the roller thoroughly without harming the rubber, restoring a surface perfect for transferring water
• Uses high flashpoint solvents, whose slower evaporation rate means more economical use – solvents do not flash off so rapidly, remaining on the rubber surface to dissolve ink

* includes UV cured newsink e.g. Flint Group Arrowlith.
Not suitable for EPDM rollers

**Available pack sizes**
5 litre can; 20 litre pail

**Product code**
L015019

**Application**
Apply Varn MRC to dampening rollers with a clean lint free cloth and simply wipe away ink, grease, and other pressroom contaminants. Rinse clean with water or wipe with a clean wet rag. Do not use on PVC or EPDM rollers

**VOC content**
98%

**Flashpoint**
67°C

**Approvals**
Non-DG – not regulated for storage or transport

### More products. Streamlined access. Greater results.

Flint Group’s Print Media division offers a uniquely powerful combination of products, services and expertise; giving you access to the industry’s broadest range of pressroom products.

Rely on us for consistency, reliability and customer focus. Our aim is to make it easier for you to achieve your business goals. With Flint Group products in your pressroom, you can run your business with confidence and peace of mind.
