News 75 wash

Roller and blanket wash for newspaper production

For rollers, and automatic blanket washing units

Product Features

- Suitable for all types of coldset inks – newspaper and directory
- Water miscible
- High flashpoint formula
- Low odour, non-corrosive formula
- Safe on all plates, in particular the latest CtP coatings
- Excellent value automatic blanket wash that is also a high performance roller cleaner

Advantages of News 75 wash

- Tested by FOGRA to meet all the requirements of original equipment manufacturers (OEM)
- Rapidly dissolves ink and glaze to speed cleaning and minimise press downtime, but will not damage rubber surfaces or printing plates, including CtP images
- High flashpoint means there is no Dangerous Goods classification on News 75, so it has no special storage requirements or limits
- Contains emulsifiers, so water can be mixed into the wash to clean solvent-soluble residue and water-soluble residue
