Varn® Apollo 865
Standard Silicone Emulsion for Web Printing

Web Conditioner

Varn® Apollo 865 is a traditional silicone product designed for the broadest range of operating conditions.

Advantages of Varn® Apollo 865

- Can be used successfully in all web printing applications to control marking
- Wide operating window that resists build-up even when dosages are not tightly controlled

HEATSET.
Specifications:
Volatile Organic Compound (VOC) as supplied: None
Weight per Gallon: 8.2 lbs.
Flash Point: None
Not Photochemically Reactive
DOT Shipping Name: Not regulated

Directions:
Mix 3 to 5 ounces per gallon of water. Increase dosage in one ounce increments as needed for heavy coverage or difficult stocks. For best results in product performance verify proper air flow through the turn bars and former board as well as tension settings at the folder nips. This will allow for the proper cushion of air and eliminate excessive friction as the web travels through the press at maximum speeds.

Packaging:
U.S.A.
5 gallon pail
55 gallon drum
275 gallon poly tote

Features | Benefits
--- | ---
Contains no wax or other additives. | Can be used in Ecocool® systems.
Uses silicone as the primary vehicle for adding lubrication. | Larger operating window with no build-up — even at very high dosages.
