Product Features

- Varn® Antistatic Solution is a conditioning fluid formulated to enhance the performance of silicone solutions used for paper treatment in the Heatset-Web market.
- Varn® Antistatic Solution is suitable for all types of presses and dramatically improves press performance by eliminating the problems attributed to static build up in folders and sheeters.
- For optimum performance the product should be used at 1-4% dilution in conjunction with a Varn® silicone solution.

Advantages of Varn® Antistatic Solution

- Eliminates static on difficult substrates.
- Minimises folder jams.
- Increases productivity.
