

# Arrowstar® UV 6000 Ink Series

Meets the demands of both high-speed web or sheetfed printing

## Product Features

- Available in process series only
- Suited for printing general purpose, forms, catalogs, books, directory, inserts, folding carton, surface print, wide format graphics, direct mail/addressing, commercial printing, and labels
- Benzophenone- and ITX-free

## Advantages of Arrowstar® UV 6000

- Low-tack – more suitable for a wide range of substrates
- Fast speed
- Low dot gain
- Excellent ink/water balance
- Recommended for direct finishing and laser printing\*
- No VOCs

# Arrowstar® UV 6000 Ink Series

<b>Substrates</b>	Ideally suited for coated and uncoated papers and boards, matte coated papers and uncoated paperboards.
<b>Limitations</b>	*Laser imprintability: suitable for many laser applications. However, due to other variables beyond our control, prequalification in the specific application is required.
<b>Remarks</b>	Arrowstar UV 6000 Inks comply with DIN ISO 2846-1 as required for printing to ISO 12647. They are also formulated in accordance with CEPE "Guide to Materials and Substances for Exclusion from Printing inks and Related Products"; EC Directive 94/62/EC - Packaging Directive in respect of Heavy Metal Content.
<b>Additives</b>	Consult your local Flint Group representative.

The aim of our technical documents is to inform our customers about general values. However, the transferability of general values known from experience and laboratory results to concrete practical applications depends on a number of factors which are beyond our control. We therefore ask for your understanding that this advice document cannot be used as the basis for claims in law. Furthermore, the correct application for each product has to be checked carefully for suitability.
