

HexaCode

TECHNOLOGY DESIGNED TO PERFORM!

A water-based ink technology that increases productivity and reduces total cost to print.

Designed to perform, the HexaCode series is a powerful technology platform that improves print quality and reduces overall packaging costs. A product range developed to excel on a wide range of paper packaging substrates.

Experience a low maintenance water-based ink system that delivers on reducing waste while maintaining industry leading print quality.

The HexaCode series is built on a Swiss Ordinance raw material platform. This unique product range offers class leading product safety.

Suitable for a wide variety of applications:

- Corrugated pre- and post-print, including lightweight liners
- Industrial paper sacks and dry food bags
- Paper shopping bags
- Gift wrap

Power up your Colours!

- Excellent product performance for in-line die cutting applications.
- Provides excellent re-solubility and clean print.
- Excellent pH and viscosity stability for low press side ink maintenance.
- Delivers outstanding print quality results and supports extended colour gamut.
- Excellent shelf life of press returns.
- Meets and exceeds current market leading print speeds.

Ink Global!

- A global product reinforced by a global team, infused with local experts and focused support.
- Global Food Packaging and regulatory compliance.
- Simplify the wide world of print with a global, consolidated, ink system.

Dream Green!

- Chemistry designed with an environmental focus - suitable for the circular packaging economy.
- Free of harmful mineral oils and solvents - designed for safe handling.
- Designed for printing safe end products.
- A Product series which supports Flint Group's sustainability platform.

Core applications:

 Hexa Code Board	Water-based ink developed and optimised for printing with excellent performance on corrugated post-print.
 Hexa Code Print	Water-based ink developed and optimised for high quality and resistance through the corrugation process.
 Hexa Code Bag	Water-based ink developed and optimised for high speed printing on dry food bags and industrial paper sacks.
 Hexa Code Retail	Water-based ink developed and optimised for excellent print performance on retail shopping bags.
 Hexa Code Wrap	Water-based ink developed and optimised for high speed printing on gift wraps.

Building Block Technology:

HexaCode is available with our Building Block Technology designed for your flexibility and efficiency.

HexaCode

Available with our Building Block Technology designed for your flexibility and efficiency!

1 **Standard Ink:** Economical, standard artwork providing regular properties

2 **Performance Ink:** High quality graphics providing specific performance

A wide range of additives, specialties and coatings designed for enhanced performance or special effects.

Triacode Additives: As needed, additives used to achieve specific properties related to various conditions and requirements.

Triacode Specialties: Unique selling appearance and effects like metallic, fluorescent, and special functionalities.

Decacode Coatings: Coatings for protection, enhanced performance; speed, gloss, friction, barrier and other enriched properties.

Unite your world of colours
