

TerraCode

DESIGNED FOR ECO-GREEN SOLUTIONS!

Water-based ink technology for Paper & Board which has been developed using biorenewable resources.

This new natural TerraCode series provides a renewable solution for printers' and brand owners' environmental and sustainable projects. Available in three levels of renewable chemistries suited for printers' specific needs.

With TerraCode, Flint Group demonstrates our commitment to a sustainable future while maintaining the print quality and packaging performance expected from a Flint Group product.

The TerraCode series is built on a Swiss Ordinance raw material platform. This unique product range offers class leading product safety.

Suitable for a wide variety of applications:

- All Paper & Board applications!
- High water and grease resistant version available for the food service market.
- Range includes high performance and direct food contact coatings.

Power up your Colours!

- Excellent mechanical resistance (i.e. for in-line die cutting applications).
- Provides excellent resolubility and clean print.
- Excellent pH and viscosity stability for low press side ink maintenance.
- Delivers outstanding print quality results - perfect for expanded colour gamut printing.
- Excellent shelf life of press returns.
- Meets and exceeds current market leading print speeds.

Ink Global!

- A global product reinforced by a global team, infused with local experts and focused support.
- Global Food Packaging and regulatory compliance.
- Simplify the wide world of print with a global, consolidated, ink system.

Dream Green!

- Chemistry designed with an environmental focus - suitable for the circular packaging economy.
- Free of harmful mineral oils and solvents - designed for safe handling.
- A Product series which supports Flint Group's sustainability platform.

Building Block Technology:

TerraCode is available with our Building Block Technology designed for your flexibility and efficiency.

TerraCode

Available with our Building Block Technology designed for your flexibility and efficiency!

CONCENTRATES

STANDARD EXTENDERS

TECHNICAL EXTENDERS

1 **Standard Ink:** Economical, standard artwork providing regular properties

2 **Performance Ink:** High quality graphics providing specific performance

Three variations available:

TerraCode is available in three variations designed for your flexibility and efficiency.

TerraCode Bio	Highest levels of biorenewable content in the TerraCode range. 100% of the resin system is made from renewable resources.
TerraCode Hybrid	Hybrid technology, suitable for applications that require higher resistance properties.
TerraCode Balance	Biomass Balance technology that offers the same performance as today's acrylic systems.

Unite your world of colours
