

Supplier Code of Conduct

Purpose of the Supplier Code of Conduct

This Supplier Code of Conduct has been created for the purpose of ensuring that our Suppliers abide by the Flint Group Code of Conduct, provide safe working conditions for their employees and treat them with respect. Their production processes should be responsible and environmentally friendly.

The Supplier Code of Conduct reflects internationally accepted standards of social and environmental responsibility in addition to our company's high expectations for ethical business behaviour. We relied on a number of sources to develop our Supplier Code of Conduct including the Universal Declaration of Human Rights, the UN Global Compact, the International Labour Organization, ISO 14001 and our industry representative organization.

Our Commitment to Suppliers

Flint Group seeks to engage in relationships with Suppliers that are socially responsible, behave with integrity and focus on sustainable development. Our goal is to partner with Suppliers who demonstrate sustainable and ethical business practices.

Our Expectation of Suppliers

a) Business Integrity & Standards

Laws, regulations and trade control

Our Suppliers must comply with all relevant laws and legislation issued by the country of their domicile, the United Nations, the European Union and the United States.

Competition and anti-trust laws

We expect our Suppliers to respect anti-trust laws and refuse any agreement with a competitor concerning prices, costs, terms, customers, markets, production, business plans or any other matter that could affect competition. An unspoken agreement to fix prices or allocate markets is just as illegal as a spoken or written agreement.

Bribery and Corruption

We expect our Suppliers to understand that offering, giving, receiving or soliciting something of value in order

to unfairly influence a business action or decision is considered by Flint Group as a bribery.

Conflicts of interest

Conflicts of interest may involve (among other things) an acceptance of personal benefits, from a person or organisation dealing, or expecting to deal, with Flint Group in any type of business transaction. The decisions our Suppliers make must not be influenced, or perceived to be influenced, by any personal or private opportunities or relationships, potential financial gain or other benefit.

Gifts and entertainment

We expect our Suppliers to respect that gifts and entertainment given and received as a reward or encouragement for preferential treatment are not allowed. In certain circumstances, the giving and receiving of modest gifts and entertainment is acceptable. Nonetheless, depending on their size, frequency and the circumstances in which they are given, they may constitute bribes, political payments or undue influence.

Business records and confidential information

We expect Suppliers to keep accurate and up-to-date records of matters related to their business with Flint Group, and to demonstrate compliance with applicable laws and regulations.

Flint Group believes its proprietary information is an important asset in the operations of its business, and prohibits the unauthorised use or disclosure of this information.

b) Human Rights and Labour Standards

Suppliers must commit to upholding the human rights of workers and to treating them with dignity and respect. Standards are set for working hours, wages and benefits, and freedom of association.

Child labour

Flint Group recognises the rights of every child to be protected from economic exploitation, and complies with the laws of each country in which it operates in regards to minimum hiring age for employees.

Forced labour

Suppliers shall not use work that is performed involuntarily under the threat of penalty, dismissal, or

denunciation to authorities or as a disciplinary measure or for failure to meet production quotas.

Freedom of Association and collective bargaining

Suppliers shall not interfere with employees' freedom of association and collective bargaining that are in accordance with applicable laws and regulations.

Non-discrimination

Flint Group does not discriminate against anyone on the basis of any characteristic protected by applicable law, but shall always, where such action is not addressed or foreseen otherwise by applicable laws, ensure that no discrimination occurs based on race, reed, disability, gender, marital or maternity status, religious or political beliefs, age or sexual orientation. We expect our Suppliers to share this policy.

Abuse and harassment of labour

Suppliers must strictly prohibit any kind of harassment, intimidation, bullying or abuse of any employee, including through the threat of physical punishment or disciplinary action, or physically, sexually, racially, psychologically, or verbally.

Wages and benefits

Flint Group complies with applicable employment laws, regulations and industry standards in each country in which it provides employment. Suppliers shall ensure employees are paid a fair wage according to at least the legal minimum standards or appropriate industry standards, whichever is higher.

Working hours

We expect our Suppliers to ensure employees do not work excessive hours, in accordance with national laws, collective agreements and the provisions of the relevant local standards on working time.

c) Health & Safety Standards

Health and safety policy

Suppliers shall have a clear, publicly-available health and safety policy statement in place, be committed to developing and applying appropriate health and safety management systems and to monitor and report corrective actions against incidents.

Safe working environment

Suppliers will maintain a safe, healthy, clean, and well-lit work environment including appropriate and adequate facilities and protection from hazardous materials or conditions.

d) Environmental Impact

Suppliers are expected to demonstrate environmental responsibility by minimizing any adverse effects from their operations on the community, environment and natural resources. All required permits, registrations and reporting are to be obtained, maintained and kept current.

Raising a concern

We set high ethical standards for our suppliers, consistent with our company's culture.

We expect our Suppliers to raise any concerns about our business conduct, or a potential breach of this Supplier Code of Conduct or our Flint Group Code of Conduct, directly with their contact in Flint Group. If a Supplier prefers, a concern can also be raised through our Flint Group Ethics Point. Ethics Point is a confidential service for employees and third parties (including our Suppliers) that is managed by an external company, independent of Flint Group, with trained staff able to deal with calls in local languages. Ethics Point is available via telephone, email or internet, 24 hours a day, 7 days a week.
