

dayGraphica 8889

Make precise web tension a daily ritual

The dayGraphica 8889 is specifically designed for newspaper presses that require a neutral feed characteristic. This neutral feed characteristic reduces overfeed of paper through the press. So, you can expect fewer web breaks, less register control problems as well as, less paper waste and down time. Couple these benefits with an ability to produce high-quality print, maintain registration and deliver consistent performance job after job and you know you can count on a good day in the pressroom.

Features

Benefits

Ground surface.	Uniform gauge and consistency. Ideal texture for carrying and transferring ink. Maximum release characteristics. Precise printability.
Compatible rubber surface compound.	Solvent resistant. Excellent abrasion resistance. Excellent release characteristics. More consistent feed characteristics.
Engineered carcass for durability.	High density carcass reduces gauge loss and provides long life.
Patented closed-cell compressible layer.	Enables blanket to achieve precise and even printing pressure across entire printing surface. Maximum smash resistance. Key factor in blanket durability. Rebounds quickly.
Dual compressible layer.	Designed to provide or yield neutral feed characteristics and to help maintain consistent web tension.

Specifications

Colour:
Green

Surface:
Ground

Thickness:
2.08mm, 2.11mm

Hardness:
77° Shore A

Compressibility:
0.18mm @ 1060 kPa Typical
0.25mm @ 2060 kPa Typical

Elongation:
<0.70% @ 10 N/mm

Tensile Strength:
>60 N/mm

Face Compound:
Solvent resistant rubber blend

Optimise your on-press performance

Over the years, Flint Group's printing technologists and pressroom chemists have learned the dynamics between printing blankets, inks and pressroom chemicals play a vital role in on-press performance and profitability. And they've learned how to analyse these dynamics to help printers resolve problems and optimise their printing results.

Our laboratory experts, technical support team and sales consultants work together with printers to recommend the right combination of pressroom products to achieve optimum performance. A consultative service offered only by Flint Group.
