

Webwash

Blanket and roller wash

Water miscible blanket wash for coldset printing

Product Features

- Suitable for all types of coldset inks
- Forms a highly stable solvent/water emulsion when mixed with water
- Coagulates ink so it sticks to the cleaning rag, not to the blanket or the roller
- Uses low odour solvents and is not over-perfumed to mask a petroleum smell

Advantages of Webwash

- Can be used with up to 50% water added, to float away paper pile from blankets
- Slightly viscous solution prevents splashing when squirted from a wash bottle onto blankets
- Neutral odour, not overpowering when it contacts hot blankets at the end of a long print run
- Very stable emulsion, can be mixed with water in wash bottles up to 24 hours before use
- Stops ink smearing across the rubber surface of blankets and rollers during cleaning

Webwash

Features	Advantages	Benefits
• Low cost	• Economical	• Saves money
• Not flammable	• Non-regulated storage	• Safe to use
• Effective on ink and paper pile	• Fast, thorough cleaning	• Reduced maintenance time
• Formulated specifically for coldset	• Optimum performance	• Best results

Available pack sizes	20 litre pail ; 200 litre drum ; 1,000 litre IBC
Product code	L010025
Application	Rollers: Use neat or with up to 50% water Blankets: Wet a rag with water, add Webwash and scrub the blanket. Or mix with 50% water in a wash bottle, shake, and apply to the blanket, then scrub with a dampened rag
VOC content	97%
Flashpoint	65 °C
Approvals	Non-DG – not regulated for storage or transport

More products. Streamlined access. Greater results.

Flint Group's Print Media division offers a uniquely powerful combination of products, services and expertise; giving you access to the industry's broadest range of pressroom products.

Inks and Coatings. Pressroom Chemicals. Blankets. Sleeves. Consumables.
