

dayGraphica 660

Sheetfed blanket

The dayGraphica 660 Sheetfed blanket from Day International uses the latest in construction technology to provide an economical solution to today's sheetfed printer.

Like all dayGraphica blankets, the fine gold line found on the backing is your assurance that you are putting one of the world's finest printing products to work for you. Experience the performance-value advantages of the dayGraphica 660.

Features

Enhanced closed cell compressible layer.

Buffed surface.

Solvent resistant rubber face.

Innovative carcass design.

Benefits

Increased smash resistance and rebound capabilities.

Fine buffed surface gives excellent print quality and precise gauge control.

Reduces swelling and edge cutting.

Reduces gauge loss.

Specifications

Colour:

Blue

Surface:

Fine Buffed

Thickness:

1.95mm

Hardness:

78° Shore A

Compressibility:

0.13mm @ 1060 kPa Typical

0.18mm @ 2060 kPa Typical

Elongation:

<1.00% @ 10 N/mm

Tensile Strength:

81 N/mm

Face Compound:

Modified solvent and ink resistant rubber blend

Optimise your on-press performance

Over the years, Flint Group's printing technologists and pressroom chemists have learned the dynamics between printing blankets, inks and pressroom chemicals play a vital role in on-press performance and profitability. And they've learned how to analyse these dynamics to help printers resolve problems and optimise their printing results.

Our laboratory experts, technical support team and sales consultants work together with printers to recommend the right combination of pressroom products to achieve optimum performance. A consultative service offered only by Flint Group.
