Varn® Hydro-Solv AIII

Automatic or manual roller and blanket wash

Roller and blanket wash for mixed mode Sheetfed presses

Product Features

- Varn® Hydro-Solv AIII is a unique blend of water miscible solvents and cleaners formulated to remove both conventional and UV inks, as well as water soluble and solvent soluble glaze.
- Varn® Hydro-Solv AIII is water miscible but contains no water. It dissolves quickly removing lint, paper dust, clay coating, casein and other debris from blankets far better than conventional washes which are not water miscible.
- Varn® Hydro-Solv AIII will combine with the residual water in the pores of a blanket and deep-down clean, even removing gum glaze. It can be mixed with 20-25% water for economy.
- Varn® Hydro-Solv AIII was formulated in conjunction with all present legislation, with a high flash point of >60 °C for increased safety and a low odour for improved working conditions.

Advantages of Varn® Hydro-Solv AIII

- Dramatically improved blanket release.
- Excellent ink solvency power.
- Vastly reduced blanket and roller swell.
- Fogra approved.
- ISEGA certified.
- Compatible with mixed application rubber compounds such as nitrile PVC blends. Not suitable for EPDM or nitrile.
- Formulated for both UV and conventional inks.
- High flashpoint (>60 °C) AIII.
- Recommended for automatic blanket and roller washing equipment.
- Suitable for all stocks including foils.

Product code

KV10-0A3G-#### (final 4 digits relate to pack size).

Pack sizes

10 litres (01F9), 20 litres (01H5), 200 litres (01MP), 600 litres (01U6) and 1000 litres (01U0).

Application

Automatic systems: Use un-diluted.

Blankets: Mix with water or apply with a wet wash-up cloth. It can be used 'as is' or with up to 20% water to remove both water soluble and solvent soluble glaze, blanket piling and lint.

Rollers: Use 'as is' or mix with 20-25% water to remove gum glaze, paper fibres and lint. For optimum performance use in conjunction with Varn® Take it off/Revitol and Varn® Calcium Deglazer as part of a regular press maintenance system.

Do not use on unbaked positive plates or EPDM rubber compounds.

Follow relevant Good Manufacturing Practice (GMP) guidelines if used for the production of food packaging.

Flashpoint

>60°C (AIII).

Approvals

OEM approved (manroland, KBA and Heidelberg Sheetfed presses; Baldwin) in accordance with Fogra corrosion and elastomer swell testing criteria.

ISEGA certified for safe use in the printing process of food packaging materials.

More products. Streamlined access. Greater results.

Flint Group's Print Media division offers a uniquely powerful combination of products, services and expertise; giving you access to the industry's broadest range of pressroom products.

Inks and Coatings. Pressroom Chemicals. Blankets. Sleeves. Consumables.

Rely on us for consistency, reliability and customer focus. Our aim is to make it easier for you to achieve your business goals. With Flint Group products in your pressroom, you can run your business with confidence and peace of mind.
